

FOR IMMEDIATE RELEASE

Comstar Interactive and WAY Systems Announce Partnership

*Comstar Certifies WAY Systems
Mobile Transaction Terminals on their Payment Gateway*

NOVEMBER 30, 2006: WAY Systems, Inc., and Comstar Interactive (Comstar) today announced that the WAY Systems family of Mobile Transaction Terminals (MTT) has been certified on the Comstar Payment Gateway. This certification includes support for credit, off-line debit and on-line (PIN-based) debit transactions.

According to Stu Fullerton, Vice President of North American Sales for WAY Systems, "We are pleased that Comstar has certified our MTT family on its network and for use with its payment gateway. Comstar is a leader in the field of wireless transaction processing, and this announcement provides additional choices for our ISO/MSP customers and other resellers who desire connectivity to the widest range of end-point payment processors."

"WAY Systems is one of the fastest-growing providers of wireless payment processing solutions, and we are eager to provide a complete, integrated Comstar solution to users of WAY's MTT family," noted Paul Sabella, President and CEO of Comstar. "We have completed exhaustive testing of WAY's products for use in our environment, and believe that resellers will see significant advantages in using the Comstar merchant boarding, transaction management and merchant billing solutions, which provides complete wireless merchant management and secure, end-to-end wireless payment transactions."

The Comstar interface for the WAY Systems MTT has been in production since November 16, 2006.
