

Press Release

Comstar Interactive Unveils New Website

May 1, 2007

(SOUTH PLAINFIELD, NJ) – Comstar is pleased to announce the new and improved corporate website, www.comstarinteractive.com.

This new dynamic site was designed with the user in mind. The new site maintains much of the same functionality as the previous site, but with increased efficiency and improved navigation features; detailed products information, archived press releases, and a list of upcoming events are just some of the items that can be found at the new and improved www.comstarinteractive.com

The website was launched in conjunction with several new naming conventions for previously released products and services: ComsGate™ (formally the Comstar Gateway), ComsGate™ Transaction Manager, Charge Anywhere Web Terminal and the Partner Portal (formally Dealer Zone).

The new Comstar Interactive website provides a more streamlined approach to gathering information about the products that ComsGate™ supports, and product information. The structure of the site has been re-engineered based upon extensive research and modern search engine optimization techniques. This updated website offers consumers more convenience and better service features, such as multiple locations to access information pages and the login areas.

If you are not currently signed up with Comstar as a Dealer or Reseller and you would like more information, please contact sales@comstarmail.com or call 800.211.1256 x 150
