

Press Release

Comstar Interactive Announces Certification with NOVA

January 26, 2007 - South Plainfield, NJ - Comstar Interactive, is pleased to announce that certification of the NOVA Information Systems Network (NOVA), platform has been completed.

"Our connection to NOVA is a key contributor in our plan to exceed our business objectives for 2007. It will provide a significant boost to Comstar's sales growth by letting us further meet the needs of our existing partners that rely on NOVA, as well as those new partners that have been waiting for this certification and have expressed an interest in working with us", said Paul Sabella, President and CEO of Comstar Interactive.

Mr. Sabella continued, *"ComsGate™ is a neutral payment gateway platform, which means that we certify our entire gateway with the processor, thus every terminal that we support through ComsGate™ will work with every processor that we are certified with. This is important as it enables us to quickly bring to market new terminals through our gateway. Ultimately allowing our sales channels to select from a vast variety of terminals and payment processors that meet their business needs versus requiring them to signup with a single provider."*

ComsGate™ is certified with First Data Omaha, First Data Nashville, Global Payments, Concord/Buypass, TSYS (formally Vital), CHASE Paymentech, NOVA, GETI and Crosscheck.

If you are not currently signed up with Comstar as an approved sales partner or if you require more information on pricing pleas, contact sales@comstarmail.com or call 800.211.1256 x 150. To request a full product matrix please email marketing@comstarmail.com
