

PRESS RELEASE

Comstar Interactive Announces Charge Anywhere® v2.0 Mobile Payment Software - Designed for Palm® TREO™ Smartphone Devices

South Plainfield, NJ – February 8, 2008 - -Comstar Interactive (www.chargeanywhere.com), a leading provider of secure Mobile Payment solutions and electronic payment services, announces the release of **Charge Anywhere® v2.0** Secure Mobile Payment solution for merchants using **the Palm® TREO™ Smartphone devices**. Charge Anywhere v2.0 Mobile is **Visa Payment Application Best Practices (PABP) validated**, and specifically designed to empower mobile payments for businesses seeking a comprehensive mobile payments solution. This announcement follows Charge Anywhere recently receiving the **“Designed for Palm Products”** honor, and its selection by Palm as **“Windows Application of the Month”**.

Enabling processing of electronic payments, virtually anywhere in the world, **Charge Anywhere v2.0 Mobile software transforms the Palm TREO Smartphone into a secure Mobile Point of Sale (MPOS) terminal**. Charge Anywhere is compatible with the latest generation TREO Smartphones including the 700w and 700wx models, and can be installed on the Windows Mobile 5.0+ operating system. Charge Anywhere supports other Smartphone and PDA platforms such as the HTC Touch™, BlackBerry® and Motorola’s Moto Q.

The power of the Charge Anywhere Mobile solution **improves business efficiencies and seamlessly integrates with QuickBooks®** and other back office applications. With easy web-based ordering and over-the-air (OTA) downloads, **Charge Anywhere Mobile reduces merchant’s processing fees, risks and ensures PCI compliance**. Users can also view, search and export, transaction data and detailed business information such as tax, tips, tolls, invoice number, employee ID, GPS, vehicle number, and more, in real-time via Comstar’s web-based ComsGate™ Transaction Manager.

Integrating **ComsGate™ - Payment Card Industry (PCI) Level I compliant Payment Gateway** and **Charge Anywhere Mobile** is a winning combination for achieving PCI compliance and managing businesses’ card data security with industry validated best practices.

Additional Charge Anywhere v2.0 secure mobile payments software for Smartphones key features include:

- Supports any Wireless Carrier
- Supports any Bank Account and Credit Card Processor
- Supports battery powered Bluetooth enabled mobile printer with magstripe reader

- Web-based transaction management system that includes a free Virtual Terminal service
- Integrates with QuickBooks PRO, Premier, and Enterprise application versions 2005 and later
- Software as a Service (SaaS) solution for Enterprise and Businesses
- Enhanced Level I PCI DSS data security and encryption technology
- Industry specific software to better manage your business data
- GPS, SMS, email messaging, and content delivery interface

Comstar offers a free demonstration and trial download of its Charge Anywhere Mobile solutions via their corporate website www.chargeanywhere.com. For more information contact Comstar Corporate Sales at 1-800-211-1256, ext. 150 or e-mail to: sales@comstarmail.com.

Live demonstrations of the Charge Anywhere v2.0 Mobile Payments Software solution using the TREQ Smartphone, will be performed March 24-26 at the Southeast Acquirer's Association (SEAA) 2008 Annual Conference, taking place at the Sheraton New Orleans Hotel and, April 1-3, in Booth #1258 during the CTIA Wireless 2008 at the Las Vegas Convention Center.
