

## PRESS RELEASE

### **Comstar Interactive's Charge Anywhere® Mobile POS Software Receives "Designed for Palm® Products" Honor**

**South Plainfield, NJ – January 18, 2008** - Comstar Interactive, a leading provider of secure Point of Sale (POS) solutions and electronic payment services, was recently awarded the "Designed for Palm Products" designation for the Company's Charge Anywhere® v2.0 Mobile Point of Sale Software solution. Visa Payment Application Best Practices (PABP) validated and specifically designed to empower mobile payments for businesses seeking a comprehensive mobile point of sale solution, Charge Anywhere allows secure processing of electronic payments in the field and transforms Palm® Treo™ Smartphones into complete mobile POS terminals.

"Comstar Interactive's Charge Anywhere v2.0 Mobile POS software is very timely. The electronic-payments industry is quickly evolving, and for many of our customers, having access to a Point of Sale application that enables payment processing from their Treo Smartphones will prove to be an invaluable tool. We look forward to working with Comstar Interactive and having its Charge Anywhere v2.0 application as an established mobile Point of Sale software solution bearing the 'Designed for Palm Products' seal of approval," said Mike Rank, director, Palm Developer Relations.

Integrating Comstar's ComsGate™ Payment Card Industry (PCI) Level I Compliant Payment Gateway and Charge Anywhere is a winning combination for managed card data security and best practices approved mobile software. The Charge Anywhere mobile point of sale software solution is easily ordered via the web and deployed wirelessly over the air (OTA). Charge Anywhere alleviates merchant's risks and worries of falling out of compliance by providing automatic security, functionality and content updates. The power of the Charge Anywhere solution improves business efficiencies and easily integrates with QuickBooks® and other back office applications. Charge Anywhere users can view, search, and export transaction data and detailed business information such as tax, tips, tolls, invoice, Employee ID, GPS and more.
