

**Charge Anywhere® Secure Mobile Payment Software for Windows Mobile® 5.0+ Meets Visa PCI PABP Security Requirements**

**February 20, 2008 – South Plainfield, NJ** --- Charge Anywhere ([www.chargeanywhere.com](http://www.chargeanywhere.com)) , a leading provider of Secure Mobile Payment software solutions and electronic payment services, announced that its Charge Anywhere® v2.0.0 Mobile Payment Software solution successfully met Visa’s Payment Application Best Practice Standard (PABP) security requirements for the Windows Mobile® 5.0+ operating system. Charge Anywhere, LLC. (dba Comstar Interactive), engaged Trustwave (Trustwave Holdings, Inc.) to conduct the independent security assessment to determine the Point of Sale (POS) software application’s ability to meet Visa’s security standards. These standards relate to cardholder data security and protection.

“This endorsement of Payment Card Industry (PCI) security acceptance from Trustwave reaffirms Charge Anywhere’s ongoing diligence in maintaining compliance with the highest level of security standards within the Point of Sale and electronic payments industry,” states Paul Sabella, CEO of Charge Anywhere. “Data security and customer confidence are critical issues in today’s business environment, especially within the financial payments industry. Charge Anywhere Mobile Payment Software for Windows Mobile gives system integrators and merchants an easy path to Level 3 & Level 4 PCI compliance. While enhancing back office operations and field support efficiencies by leveraging Microsoft Windows Mobile devices and Microsoft server applications such as SQL.

Charge Anywhere transforms the latest generation of Smartphones and PDAs into complete Mobile POS (MPOS) terminals. Merchants can achieve payment card industry compliance and start processing secure transactions within moments. And, when combined with ComsGate™ PCI Level 1 compliant Payment Gateway, they are assured of a best-of-breed (MPOS) payment solution platform for effectively managing card data security with industry best practices.

**Charge Anywhere v2.0.0 Secure Mobile Payment software also:**

- Supports all bank accounts, credit card processors and wireless carriers
- Integrates with QuickBooks® Pro, Premier, Enterprise and POS software applications
- Provides enhanced data security and encryption technology – PCI Level 1, TAP, PCI PABP
- Includes a web-based transaction management system with free Virtual Terminal service
- Supports industry specific software for optimal business data management
- Provides API integration for developers to the ComsGate Payment Gateway
