

CHARGE Anywhere® Enables PIN Debit on Card Payment Plug-in Designed for Use with QuickBooks®

SOUTH PLAINFIELD, NJ (September XX, 2008) – CHARGE Anywhere®, a leading provider of secure Point-of-Sale (POS) solutions and electronic payment services, is delighted to announce the ability to accept PIN Debit payments with their card payment Plug-in designed for use with QuickBooks®. This is extremely beneficial to the Small and Medium Merchant Business community by allowing them to process PIN Debit transactions without changing their compatible QuickBooks software.

CHARGE Anywhere designed for use with QuickBooks with PIN Debit capability not only expands the merchant's level of service, but reduces cost a merchant pays per transaction. With the increased fraud protection, PIN Debit is a smart decision for small and medium sized merchants that can assist in reducing chargebacks due to less fraudulent purchases. When you integrate these functions into the merchant's QuickBooks software and you are going to have a happier and more productive merchant.

CHARGE Anywhere with PIN Debit feature is available with the use of a PIN pad that will be attached to the computer via cable. The compatible PIN pad devices are the LinkPoint BankPoint II, VeriFone SE1000, and the Ingenico 3010. All of the mentioned PIN pads are PCI PED compliant and certified. In addition, the CHARGE Anywhere Point of Sale software has been validated and meets PCI PABP compliance standards and the ComsGate® Payment Gateway is certified as PCI DSS Level 1 compliant.

With the addition of PIN Debit, CHARGE Anywhere has significantly improved the functionality of their CHARGE Anywhere payment software for retailers. With PIN Debit devices added, the CHARGE Anywhere designed for use with QuickBooks payment plug-in is now, more than ever, one of the most versatile, secure payment software plug-ins on the market. PIN Debit adds to a long list of features that include customizable software settings, gift, loyalty, versatility, and security.
