

CHARGE Anywhere® Releases the First Mobile Payment Solution for the BlackBerry® Tour™ Smartphone

SOUTH PLAINFIELD, NJ (July 13, 2009) – CHARGE Anywhere®, a leading provider of secure Point-of-Sale (POS) solutions and electronic payment services and a BlackBerry® ISV Alliance Partner, is proud to announce the release of the latest version of its industry leading mobile card payment software application supporting the new 3G BlackBerry Tour Smartphone. The BlackBerry Tour is feature-packed and offers state-of-the-art communications and multimedia capabilities, and is now available with CHARGE Anywhere's card payment functionality.

Since 2004, CHARGE Anywhere specializes in secure mobile point of sale solutions that encompass software, hardware, security services, and support for mobile merchants. With many secure PA DSS certified software applications and its top-of-the-line PCI DSS Level 1 secure payment gateway, CHARGE Anywhere provides end-to-end secure solutions that enable merchants to accept credit cards anywhere, any time.

"With the certification of the BlackBerry Tour, CHARGE Anywhere remains in its leadership position with providing the latest in secure, mobile payment solutions to our valued customers and partners," said Paul Sabella, President and CEO of CHARGE Anywhere.

"CHARGE Anywhere works tirelessly to provide best-of-breed solutions to the market as evidenced by the recent addition of support for the BlackBerry Tour," said Dmitriy Lerman, Director of Marketing at CHARGE Anywhere.

The CHARGE Anywhere team strives to be on the leading edge, providing continuous integration with the latest technologies, while maintaining award-winning iron-clad security. The addition of the BlackBerry Tour smartphone to CHARGE Anywhere's portfolio of supported mobile payment platforms extends the benefits of this new and exciting technology to CHARGE Anywhere's customers. CHARGE Anywhere's customers can immediately start boarding mobile merchants on First Data, TSYS, Global Payments, Paymentech, and Elavon payment processing platforms.
