

CHARGE Anywhere®

Designed for Use With QuickBooks®

Provide merchants a feature-rich plug-in to process credit card, debit card and ACH payments directly within QuickBooks. Save merchants time by eliminating double entry and save them money by lowering their processing fees.

Process transactions directly within QuickBooks®

Features:

- ✓ Process credit card, debit card and ACH payments within QuickBooks.
- ✓ Automatically generate and apply payment to an invoice or customer upon transaction approval.
- ✓ Import transactions into QuickBooks from eCommerce, Mobile Devices, POS Terminals and Virtual Terminal.
- ✓ Swipe a card to quickly initiate a payment. Perfect for retail.
- ✓ Stores electronic signature for easy chargeback retrieval.
- ✓ Process returns and voids.
- ✓ PCI PA DSS Validated Payment Application.
- ✓ Uses PCI DSS Level 1 complaint payment gateway ComGate, certified by all major payment processors.

Transaction Methods Include:

- ✓ QuickSale - Generate a payment or sales receipt with or without an invoice.
- ✓ Multiple Invoices - Process multiple invoices or sales receipts simultaneously with the included PCI-Secure customer database.
- ✓ Recurring Payments - Create recurring transactions with effective date, frequency, number of payments and amount.
- ✓ Bill Presentment - Email an invoice with a link to a secure and customizable payment form hosted by CHARGE Anywhere. (Add-on Service)

CHARGE Anywhere[®] Designed for Use With QuickBooks[®]

Merchant Benefits:

Save Money - Use the merchant service provider of choice and save on processing fees.

Save Time - Avoid double entry by automatically creating and applying payments to invoices and import transactions from other services.

Flexibility - Process credit card, debit card and ACH payments in multiple ways to conform with unique business processes.

Security - Eliminate PCI risks and compliance issues by using a PCI Validated application that stores customer payment information in a PCI secure database.

Included Services:

- ✓ Transaction Manager - Web-based system to see transactions in real-time, run reports, investigate past transactions and retrieve receipts with signature.
- ✓ Free Virtual Terminal - Web-based service to key in transactions.

Add-on Services:

- ✓ Bill Presentment - A cloud service that enables merchants to securely email invoices and receive payments online while being PCI compliant. Give your merchants the ability to improve their cash flow, streamline Accounts Receivable and process more credit card transactions.
- ✓ QB Installation and Training - Schedule a complete installation and training service by our world-class support team.

Supported Peripherals

- ✓ Ingenico i3010/i3070
- ✓ VeriFone PP 1000SE
- ✓ Ingenico i6580/i6780 for signature capture
- ✓ Citizen CT-S300 Printer
- ✓ Spectra PR-608 Pin Pad/MSR
- ✓ USB Magnetic Card Reader
- ✓ Bluetooth Card Reader / Receipt Printer
