CHARGE ANYWHERE CERTIFIES ELO PAYPOINT TO DELIVER SIMPLICITY AND PERFORMANCE AT THE CHECKOUT

Streamlined solution combines Elo's sleek all-in-one PayPoint with Charge Anywhere's QuickSale cloud-based retail management system

MILPITAS, Calif. — October 23, 2017 — Elo, a leading global supplier of POS touchscreen solutions, today announced that Charge Anywhere[®], an award-winning financial technology and EMV payment solutions provider, has certified the newly upgraded Elo [PayPoint](#)[®] for Android™ platform for use with its QuickSale cloud-based POS software platform. This joint solution enables a comprehensive retail management platform touting the uniquely elegant style PayPoint is known for. With a customer-engaging flip-for-signature touchscreen and fully integrated peripherals, including a barcode scanner, printer, MSR and cash drawer and customer-facing display, PayPoint meets a merchant's every need at the checkout. Available today, Cash Register POS and PayPoint provide a seamless solution for merchants of all types including retail stores, supermarkets, concession stands and mobile pop-up shops.

“Charge Anywhere is excited to partner with Elo to deliver QuickSale POS, a high quality cash register point of sale software and hardware solution for retail, service and delivery merchants. Quick Sale POS is available in the US, Caribbean and Latin America and supports English and Spanish languages. The QuickSale POS product is feature-rich cash register POS solution that manages inventory, products and payments with the benefit of enabling businesses to manage their POS systems from our cloud platform on proven Elo cash register hardware that has a 3 year warranty” commented Paul Sabella, CEO of Charge Anywhere.

Powered by Android 7.1 (Nougat), the upgraded [PayPoint for Android](#) solution offering the same sleek design now delivers four times the speed with the Qualcomm[®] Snapdragon™ octa-core processor, 3 GB of RAM and 32 GB of storage. Coupled with Charge Anywhere POS software, merchants benefit from a highly secure design and versatile sales-reporting capability, enabling efficiency and security at the checkout and in business operations.

“Merchants continue to seek out the flexibility and simplicity of Android-based POS solutions like Charge Anywhere's QuickSale platform,” said Dave Murphy, director of software alliances and developer relations at Elo. “Coupled with Elo's refreshed PayPoint solution, we're delivering style with more power and connectivity to

run business better.”

Charge Anywhere’s Cash Register POS platform is designed to give retail and services oriented businesses a competitive advantage with powerful features at a low price. Manage employees, products, prices, promotions, customers and more combined with inventory management. QuickSale will handle PIN Key injections, EMV contact and contactless credit and debit card payments with point to point encryption (P2PE), leveraging our PA DSS and PCI DSS Level 1 validations which can save merchants thousands of dollars a year in PCI compliance costs.

All of Elo’s Android-powered touchscreen solutions, including the PayPoint model certified by Charge Anywhere, are available for use with [EloView](#)[®] software, a secure SaaS platform that allows merchants to simplify and automate the configuration and deployment of Elo devices, POS applications and software updates across multiple locations remotely.

Elo PayPoint running Charge Anywhere’s QuickSale POS software will be available to demo live at [Money 20/20](#) in booth 1148, October 22-25, 2017.
